

▶ Polycom® CX Phone Family

Optimised for Microsoft® Office Communications Server 2007

A complete unified communications experience at a significantly lower total cost of ownership

The Polycom CX phone family delivers the high quality, high definition wideband audio experience users expect from Polycom. Whether you choose the hands-free CX100 speakerphone, CX200 desktop phone, CX700 IP phone, or all of the above, each provides full, convenient access to the advanced presence-enabled features of Microsoft Office Communications Server 2007.

The Polycom CX phone family is designed specifically for use with Office Communications Server 2007 and the benefits are numerous. Clear, high definition, wideband audio maximises the accuracy and productivity of real time conversations. Advanced audio processing for full-duplex speakerphones maximises audio quality. Plus, three different form factors with familiar telephone user interfaces both complement and offer convenient access to the advanced features of Office Communications Server 2007 and Microsoft Office Communicator 2007.

Polycom CX phones are part of a complete unified communications experience that offers a significantly lower total cost of ownership. No matter how diverse your communications environment, there is a Polycom CX phone designed to meet your business needs.

About Polycom

Polycom, Inc. (NASDAQ: PLCM) is the global leader in telepresence, video, and voice solutions and a visionary in communications that empower people to connect and collaborate everywhere.

Companies choose Polycom solutions because they allow geographically dispersed workforces to communicate more effectively and productively over distances. Using Polycom voice, video, and telepresence products and services, people connect and collaborate with one another from their desktops, meeting rooms, class rooms, and mobile settings rather than travelling to one place to solve problems.

Find out how your workers can quickly collaborate "face-to-face" wherever they are. Visit www.polycom.com.

- ▶ Meets your unique business needs – Polycom offers a broad array of telephone devices designed specifically for use with Office Communications Server 2007
- ▶ Easy to use – USB peripherals work seamlessly with Microsoft Office Communicator 2007, no drivers or other software to install
- ▶ Superior audio – the higher quality of more traditional phone devices eliminates the need to rely on a computer speakers or wear a headset
- ▶ True business class solutions – superior quality and durability
